【研究概要】

MathLibre项目的目的是获得免费数学软件和数学文献，并给二者提供Linux系统的服务器端。该项目KNOPPIX/MATH项目的后续。它为数学提供了一个方便，快捷的平台

MathLibre is a project to archive free mathematical software and free mathematical documents and offer them on Live Linux system. MathLibre Project is the direct descendant of KNOPPIX/Math Project. It provides a desktop for mathematics that can be set up easily and quickly.
